PROFILE CUTTING SOLUTIONS THAT WORK FOR YOUR BUSINESS

Time really is money!

At ccts, we understand that you need a competent & experienced Company who can get to you quickly, diagnose the fault and more importantly repair your cutting machine.

With over 20 years of problem solving, you can be assured of a quality service.

We stock a vast array of new and refurbished spare parts for most makes of gas and plasma cutting machines

Authorised distributors for suppliers such as BURNY, WESTINGHOUSE, KALIBURN (INNERLOGIC) and HYPERTHERM

Full refurbishment service

At our new premises in stockport we can take your existing unreliable machine and breathe new life into it.

Breaking the machine down to its base parts, replacing the bearings, shot blasting the beam, repainting and fitting a state of the art controller. Leaving you with an as new machine

All this done at a fraction of the price of a new machine.
